### wasini island

Relax all day on our chartered dhow adventure, beginning with breakfast in the caves of Shimoni, near Tanzania's border, once a slave prison and now home to many species of bat.

Board your dhow and receive a true African welcome, then cruise in search of dolphins before reaching Kisite Marine National Park, to snorkel over the reef among fishes and enjoy a glass-bottomed boat ride or

scuba dive with a fully qualified guide and instructor. Sail to Wasini Island for a seafood lunch, with as much freshly steamed crab as you can eat, then laze by the pool all afternoon or join a guided walk into the village, picking up handmade fabrics and souvenirs.
